SUMMARY

Innovative and performance-driven **React.js Frontend Developer** with 2+ years of experience building scalable and responsive web applications. Expertise in creating dynamic user interfaces and integrating front-end solutions with back-end APIs. Proficient in modern JavaScript frameworks and libraries, with strong problem-solving skills and a focus on delivering high-quality code.

TECHNICAL SKILLS

- **Frontend Technologies:** React.js, Redux, JavaScript, HTML, CSS, Bootstrap, Material UI

- **State Management:** Redux Toolkit

- **Version Control:** GitHub

- **Backend Technologies:** SQL, PL/SQL

EXPERIENCE

React.js Frontend Developer   **May 2024 – Present**

Xpentra Pvt. Ltd., Mumbai **Project: Xpentra Application**

- **Bug Fixing & Debugging:** Efficiently resolve issues raised by the testing team or based on business requirements, leveraging deep understanding of component lifecycle and functionality to ensure optimal performance.

- **Reusable & Dynamic JSX Components:** Maintain and enhance JSX components, ensuring they are reusable and adaptable to real-time environments.

- **Responsive Design Implementation:** Convert InDesign/Figma designs into responsive React.js components, ensuring compatibility across various devices and screen sizes.

- **CSS & Tailwind CSS:** Utilize CSS and Tailwind CSS to make components flexible, responsive, and visually appealing, adapting to different screen adjustments.

- **API Integration & State Management:** Manage API calls using Redux/Toolkit, bringing applications to life with seamless state management and secure JWT tokenization for user authorization.

Executive Developer   **Oct 2022 – Apr 2024**

Claptek Pvt. Ltd., Mumbai **Project: Audit System Application (React.js Frontend Developer)**

- **Dynamic User Interface Development:** Spearheaded the development and maintenance of dynamic user interfaces using React.js, prioritizing a seamless and intuitive user experience.

- **Innovative Component Design:** Designed and implemented a highly adaptable component that dynamically adjusts to changes in the 'Form Category,' showcasing problem-solving skills and adaptability.

- **Cross-Functional Collaboration:** Collaborated with cross-functional teams to deliver front-end solutions that align with project goals, ensuring smooth integration with back-end systems.

Project: Audit Automation (Client: Bank of Baroda)

- Developed an "Audit Form" using the Metrics Stream platform to store data in the Bank's database.

- Created Oracle Functions and Packages with complex queries to generate "Audit Reports" based on user requirements.

- Utilized advanced SQL techniques, including Cursors, Subqueries, Inline queries, and Join conditions, to obtain reports in a tabular format.

Associate E-Pub Developer   Oct 2019 – Sep 2022

Knowledge Global Works Pvt. Ltd., Mumbai **Project: Sheridan Articles & Journal**

- Converted customer raw data articles and journals into web pages and PDF formats using HTML, XML, and CSS.

- Ensured quality control by cross-verifying data according to the customer's checklist, maintaining a high level of accuracy.

PROJECTS

Food Menu (React.js)

- Fully developed frontend application using React.js, HTML, CSS, and JavaScript.

- Implemented dynamic components and an interactive user interface to render each food card.

- Utilized Redux for efficient state management.

Transfer Files (React.js)

- Allows users to upload files with a name, description, and recipient's user ID.

- Files appear in the recipient's inbox upon upload.

- Fetches data through an API using Redux. API built with Node.js and Express.js.

EDUCATION

Bachelor of Science in Computer Science   2016 – 2019

CGPI: 5.53

PROFILE

- **Date of Birth:** 5th April 1997

- **Languages:** English, Hindi, Marathi, Tamil

- **Hobbies:** Illustration, Volleyball
